

"Ride Your Wave"

V1 I want to take you around the world and show you
what love can be
Take you by the hand ask you trust in me
Give you love you can believe
This time you will feel
A love that's so sweet
It blows your mind

Cho: I want to ride your wave
If you let me
I will ride your wave
Tell me anytime anyday
Let me ride you wave

V2 I believe that love is more than just the words
We say
A tender kiss conveys more than words can say
If you come closer to me
My words turn to deeds
And the passion we feel
It turns into a fire

Cho I want to ride your wave
If you let me
I will ride your wave
Tell me anytime anyday
Let me ride your wave

I want to ride your wave
If you let me
I will ride your wave
Take me to where love goes to play

Let me ride you wave

Bdg You are my sunshine
You chase away the rain
One look in your eyes
The magic is insane

Cho I want to ride your wave
I want to ride your wave

I want to ride your wave
Ride your wave
Ride your wave

I want to ride your wave
Ride your wave
Ride your wave

I want to
I will ride your wave
Let me ride your wave
I want to ride your wave
Let me
I will ride your wave
